The JEE Editorial Board, our publisher and international partners recognise the need to update our strategy and mission for the coming years to better meet your needs and expectations. First, the JEE is focused on furthering the development of theoretical and applied research in all areas of the European economy. These include, but are not limited to: the theory of international economy; the economy of European countries; European integration; financial and banking services market; regionalization and globalization; trade relations; exchange rates. Second, the JEE remains a quarterly bilingual (English and Ukrainian) publication and an integral part of open access in cyberspace, but the number of publications doubles without losing their quality.

It should be noted that the materials submitted for review and publication in JEE must be between 10 and 15 pages, line spacing 1.5 (about 25,000 characters with spaces) and be emailed to jee.tneu09@gmail.com; the detailed requirements for the articles can be found on the JEE website at <http://jeej.tneu.edu.ua/>. Your ar-
